Appl. No. 09/742,631 Amendment Dated February 18, 2004 Reply to Office Action of August 18, 2003

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

Claims 1 - 7 (Canceled).

Claim 8 (Currently amended). A stimmer plate dispenser for active materials, said dispenser comprising, in combination, a motable solid flat comprising a voiable said under dispenser comprising, in combination, a motable solid flat comprising a voiable said under material, a consumable wick, a heat conductive base upon which said rule rests(, and) hasing heat conductive elements in <u>said bage</u> by which heat is conductive to said said said wick, whereby a poor of heater legical under loss all conductive material volabilizes, wherein said heat conductive base is configured on as to cause the flow of eath headed (gald lett) to add wick for controlution, said base and said heat conductive elements are configured so as to cooperatively engage eat goilg fuel, and said active material is selected from the group consisting of fragrances, air freshersers, decortizes, odor elimination, odor courrieractants, insecticides, insect repellants, hetad substances, medicinal substances, delirectants, sanitizers, mood enhances, arom a heating substances, and minktures thereous, and minktures thereous and materials response.

Claim 9 (Original). The dispenser of Claim 8, wherein said fuel is selected from the group consisting of gels and solid waxes.

10 (Currently amended). The dispenser of Claim 8, wherein said heat conductive element [is selected from the group consisting of lobes, fins, wick holders, and combinations thereof] <u>comprises a lobe</u>.

Claim 11 (Currently amended). The dispenser of Claim 10, wherein said [heat conductive element is a lobe, and said] volatile active is selected from the group

Appl. No. 09/742,631 Amendment Dated February 18, 2004 Reply to Office Action of August 18, 2003

consisting of fragrances, air fresheners, insect repellants, herbal substances, mood enhancers, and aroma therapy compositions.

Claim 12 (Canceled).

- 14 (Original). A simmer plate dispenser as set forth in Claim 13, wherein said heat conductive element is selected from the group consisting of lobes, fins, wick holders, and combinations thereof.
- 15 (Originial). The dispenser of Claim 14, wherein said heat conductive element is a lobe, and said active ingredient is selected from the group consisting of fragrances, air fresheners, insect repellants, herbal substances, mood enhancers, and aroma therapy compositions.
- 16 (Original). The dispenser of Claim 14, wherein said heat conductive element is a wick holder with fins, and said active ingredient is selected from the group consisting of

Appl. No. 09/742,631 Amendment Dated February 18, 2004 Reply to Office Action of August 18, 2003

fragrances, air fresheners, insect repellants, herbal substances, mood enhancers, and aroma therapy compositions.

Claims 17 - 20 (Canceled).

Claim 21 (Currently Amended). A dispensing advice for dispensing a volable active material, said device comprising a heat conductive container for a replaceable fuel element comprising a combustible wick and said volatile active material, said container comordism a heat conductive lobe wheneby heat is conducted to said fuel element and said container, said container and beha configured so as to engage and melt said solid fuel element and to cause the flow of meters fuel to be all with fuel element and to cause the flow of meters fuel to be all with

22 (Original). A dispensing device as set forth in Claim 21, wherein said containor comprises a concave simmer plate constructed of a heat conductive malorial selected from the group consisting of brass, aluminium, steel, copper, stainless steel, silver, lin, bronze, znc, lorn, clad materials, heat conductive polymers, ceramics, glass, and combinations them.

23 (Canceled).
